

A-PDF Explorer 3.3

Posted by: ManXP

Posted on : 2011/1/8 3:13:07

A-PDF Explorer is a simple, lightning-fast desktop utility program that lets you to easily manage, organize, filter (using several metadata fields like: Filename, file size, file date, Title, Subject, Author, Creator, Producer, Creation Date, Modification Date) and batch processing (add security, set initial view, extract text and image etc your large archive of PDF files. If you need to process a large batch, or collection, of PDF files at once, then you will also find appropriate tools. For example, if you would like to apply standard security settings to a large number of existing PDF documents or searchfilter using PDF properties at once, then you could achieve this by using A-PDF Explorer.

Software License: Shareware
