Posted on : 2012/3/1 22:47:49

Tracks Eraser Pro is designed to protect you by cleaning up all the unwanted history data on your computer. With only one click, Tracks Eraser Pro allows you to erase the cache, cookies, typed URLs, autocomplete memory from your browser, and Window's temp folder, run history, search history, open/save history, recent documents, etc. With Tracks Eraser's free plugins, you can easily erase the tracks of up to nearly unlimited applications, such as playlist of Realplayer, Mediaplayer, QuickTime, recent files of Office, Acrobat, Winzip, etc. Tracks Eraser can also let you customize what file(s) and registry entry(s) to be erased. With Tracks Eraser's Securely Erasing feature, you can erase the files completely, which can not be recovered by others.
