

## **Service - O - Matic 2.03**

Posted by: ManXP

Posted on : 2006/10/15 17:28:27

Running a program as a service has several benefits: you will be able to utilize automatic start at boot-time to ensure maximum uptime of your system-critical applications (even if no user logs on), run your programs in the background without user interventions, automatic restart if your program fails and more! No need to adjust your application, Service - O - Matic will run your program as a service in no time.
