

SonicHANDY Mobile Phone Manager 9.1

Posted by: ManXP

Posted on : 2009/4/13 2:57:26

SonicHANDY Mobile Phone Manager is a tool that enables you to manage and operate multiple GSM mobile phones within a single application from the PC. Read and send messages with the comfort of a computer keyboard and screen. Manage, archive and backup all your contacts and messages - you won't lose a message or a contact ever again. See who has called you and decide whether to answer or to simply send a message, without having the mobile phone in your hands even for a moment. Browse the history of calls received. View the health status of your phone.

■ Software License: Shareware
